Instructions for Form FTB 5870A

Tax on Accumulation Distribution of Trusts

References in these instructions are to the Internal Revenue Code (IRC) as of **January 1, 2001**, and to the California Revenue & Taxation Code (R&TC).

General Information

In general, California law conforms to the Internal Revenue Code (IRC) as of January 1, 2001. However, there are continuing differences between California and federal law. It should be noted that California does not always conform to the entire provisions of a public law. California has conformed to some of the changes made to the Internal Revenue Code after January 1, 2001, including some provisions of the Economic Growth and Tax Relief Reconciliation Act of 2001 (Public Law 107-16), the Victims of Terrorism Tax Relief Act of 2001 (Public Law 107-134), and the Job Creation and Worker Assistance Act of 2002 (Public Law 107-147). California has not conformed to any of the provisions of the Jobs and Growth Tax Relief Reconciliation Act of 2003 (Public Law 108-27) and the Military Family Tax Relief Act of 2003 (Public Law 108-121).

If you received an accumulation distribution from a foreign trust, use federal Form 4970, Tax on Accumulation Distribution of Trusts, as a worksheet. The partial tax from an accumulation distribution of a foreign trust computed on federal Form 4970 is reported on federal Form 3520, Annual Return to Report Transactions With Foreign Trusts and Receipt of Certain Foreign Gifts. California does not conform to the federal provision relating to information returns required for foreign trusts with United States beneficiaries, IRC Section 6048(c).

Report the accumulation distributions from foreign trusts and from certain domestic trusts on this form, and attach it to your return. See IRC Section 665(c).

California tax law conforms to provisions of the Taxpayer Relief Act of 1997 that repealed the throwback rules for distributions made by certain domestic trusts in tax years beginning on or after January 1, 1998.

Note: Although California conforms to the federal provision repealing the throwback rules, California may still apply Revenue & Taxation Code (R&TC) Section 17745(b). This provision states that if the trust did not pay tax on current or accumulated income of the trust because the resident beneficiary's interest in the trust was contingent, this income will be taxable when it is distributed or distributable to the beneficiary. See the instructions for Form 541 for more information.

Purpose

Use form FTB 5870A to figure the additional tax under IRC Section 667 or R&TC Sections 17745(b) and (d) on an accumulation distribution made by a foreign trust and certain domestic trusts in the current year.

If IRC Section 667 and R&TC Section 17745(b) both appear to apply to the same distribution, calculate the tax on the distribution using R&TC Section 17745 and Part II only. (See R&TC Section 17779.)

If you were a noncontingent beneficiary and you received Schedule J (541), Trust Allocation of an Accumulation Distribution, and the trust filed Form 541, California Fiduciary Income Tax Return, and paid the tax, compute your additional tax under the provisions of IRC Section 667. Complete Part I of form FTB 5870A to determine the amount of the tax due.

If you were a contingent beneficiary and you did not receive Schedule J (541) because the trust was not required to file Form 541, compute your additional tax under the provisions of R&TC Sections 17745(b) and (d). Complete Part II, Section A or Section B, of form FTB 5870A to determine the amount of additional tax due.

Do not use form FTB 5870A if you were a non-contingent beneficiary and you received an accumulation distribution, but you did not receive Schedule J (541) because the trust did not file Form 541 or pay the required California tax due. The entire trust accumulation income is taxable in the year that you receive the distribution, and should be reported on Schedule CA (540), California Adjustments – Residents, or Schedule CA (540NR), California Adjustments – Nonresidents or Part-Year Residents, line 21f, column C. See R&TC Section 17745(a).

California does not follow the federal rules for:

- Generation-skipping transfer tax imposed by IRC Section 2601; and
- The tax relating to estates imposed by IRC Section 2001 or Section 2101.

Except as explained above, use the instructions for federal Form 4970 to compute the partial tax.

Nonresidents or part-year residents in preceding five years: For any year you were a nonresident or part-year resident in the accumulation years listed in Part I, Section B, skip line 14 through line 22. Complete Long Form 540NR, California Nonresident or Part-Year Resident Income Tax Return, up to line 46, total tax. Make your adjustments on the accumulation years listed, eliminating the highest and lowest taxable income years. Include in the total adjusted gross income for Long Form 540NR the amount from form FTB 5870A, Part I, line 12, plus all other income of the beneficiary as if the beneficiary was a California resident for the entire year.

Note: The law governing California's taxation of nonresidents, former residents, and part-year residents has changed for taxable years beginning in or after 2002. The new law changed the method that such individuals must use to compute and recognize loss carryovers, deferred deductions, and deferred income. Get FTB Pub. 1100, Taxation of Nonresidents and Individuals Who Change Residency, and FTB Pub. 1031, Guidelines for Determining Residency Status, for more information.

If you were a California resident at the trust's year end, include the amount from form FTB 5870A, Part I, line 12, in California adjusted gross income on the Long Form 540NR, line 25. If you were a nonresident at the trust's year end, include the California source income amount from form FTB 5870A, Part I, line 12 in California adjusted gross income on Long Form 540NR, line 25. You may need to contact the trust for additional information regarding sourced income. In either instance, include all other income of the beneficiary from periods of California residency and all other California source income from periods of nonresidency.

Enter the amount from Long Form 540NR, line 46 on form FTB 5870A, line 23. Follow the instructions for completing the rest of form FTB 5870A.

Specific Line Instructions

Part I

Line 1 – Enter the amount distributed in the current year that represents the undistributed net income of a trust considered to have been distributed in earlier years.

Line 2 – Enter any amount on line 1 that represents undistributed net income (UNI) of a trust considered to have been accumulated before you were born or reached age 21. However, if the multiple trust rule applies, see the instructions for line 4.

Line 4 – Except as noted below under “Special Rule for Multiple Trusts,” enter on line 4 the California taxes (not including any alternative minimum tax) charged for any earlier year on the trust income that are attributable to the net income reported on line 3. See IRC Sections 666(b) and (c).

Special Rule for Multiple Trusts. If you received accumulation distributions from two or more other trusts that were considered to have been made in any of the earlier tax years from which the current accumulation distribution is considered to have been made, do not include on line 4 the taxes attributable to the current accumulation distribution considered to have been distributed in the same earlier tax year(s).

This special rule applies only to those trusts with accumulation distributions (including earlier accumulation distributions that are considered under IRC Section 666(a) to have been distributed in the same earlier year) that total \$1,000 or more.

Line 8 – You can determine the number of years which the UNI is deemed to have been distributed by counting the throwback years for which there are entries on line 26 through line 29 of Part IV of Schedule J (541). These throwback rules apply even if you would not have been entitled to receive a distribution in the earlier tax year if the distribution had actually been made then.

Note: There can be more than four throwback years.

Line 11 – From the number of years entered on line 8, subtract any year in which the distribution from column (a), Part IV of Schedule J (541) is less than the amount on line 10 of form FTB 5870A. If the distribution for each throwback year is more than line 10, then enter the same number on line 11 as you entered on line 8.

Line 13 – Enter your taxable income for years 1998 through 2002, even if the trust had accumulated income less than five years after the beneficiary became 21 years old. Use the taxable income as originally reported, amended, or as changed by the Franchise Tax Board (FTB). Include in the taxable income, amounts considered distributed as a result of prior accumulation distributions whether from the same or another trust, and whether made in an earlier year or the current year.

For years 1998 through 2002, enter the amount of your taxable income, but not less than zero.

Line 17 – Compute the tax (not including any alternative minimum tax) on the income on line 16 using the tax rates in effect for the earlier year shown in each of the three columns. Use the California tax tables included in the personal income tax booklets for prior years.

You can download, view, and print California tax forms and publications from our Website at www.ftb.ca.gov

You can also order California tax booklets, forms, and publications over the telephone. Call FTB's general phone service at (800) 852-5711 (within the United States) or (916) 845-6500, from outside the United States (not toll-free).

Line 18 – Enter your tax (not including any alternative minimum tax) as originally reported, amended, or as changed by the FTB before reduction for any credits for the particular earlier year shown in each of the three columns.

Line 20 – Include on line 20 only the net change in nonrefundable credits, such as exemption credit, etc. For example, to the extent the tax on line 18 is less than the allowable exemption credit, only the excess exemption credit is to be included on line 20.

Line 21 – If the net change results in a decrease in allowable credits, add line 20 and line 19.

Line 22 – Complete and attach a separate Schedule P (100, 100W, 540, 540NR, or 541) to recompute the alternative minimum tax for each earlier year and show any change to those taxes in the bottom margin of the form. Enter the adjustment on line 22.

Line 28 – Individuals – Enter the amount from line 28 on Form 540, line 23 or Long Form 540NR, line 26. Fill in the circle labeled “FTB 5870A.”

Estates and trusts – Include the amount from line 28 on Form 541, line 21b. Write “FTB 5870A” on that line.

Other filers – Add the amount on line 28 to the total tax liability before credits on your tax return for the year of the accumulation distribution. Attach form FTB 5870A to the back of your return.

Part II

If you were a contingent beneficiary and the trust was not required to file Form 541 because your interest was contingent, you will not receive a Schedule J (541). Therefore, you must contact the trustee to get information you need to complete form FTB 5870A. The trustee must provide the:

- Total number of years that the trust income was accumulated; and
- Total amount of the accumulation distribution.

If the total number of years that the trust income was accumulated is five or more, complete Section A to determine your tax due.

If the total number of years that the trust income was accumulated is less than 5 years, complete Section B to determine your tax due.

Section A

Complete this section to compute your additional tax due on a trust distribution accumulated over a period of five years or more. If the accumulation period was less than 5 years, skip this section and complete Section B.

Line 1 – Enter the amount of your accumulation distribution.

Line 2 – Enter the amount from line 2 on Schedule CA (540 or 540NR), line 21f, column C. This is the amount to be included in the current year. The balance of this schedule will be used to compute the tax on the portion of the distribution attributable to prior years.

Line 3 – Enter “Yes” in each column for the years that you were either a California resident or part-year resident. Enter “No” for the years that you were a nonresident. If the taxpayer was a resident during any portion of the time the trust accumulated the income being distributed in the current year, and left the state for any period of time beginning within 12 months of the date of the current distribution and returned to the state within 12 months of the date the current distribution was made, the taxpayer is presumed to have continued to be a resident throughout the time of distribution.

Line 4 – Enter your taxable income from years 1999 through 2002. Use the taxable income as originally reported, amended, or as changed by the FTB.

Line 7 – Compute the tax (not including any alternative minimum tax) on the income on line 6 using the tax rates in effect for the earlier year shown in each of the five columns. Use the California tax tables included in the personal income tax booklets for prior years.

Line 8 – Enter your tax (not including any alternative minimum tax) as originally reported, amended, or as changed by the FTB before reduction for any credits for the particular earlier year shown in each of the five columns.

Line 10 – Include on line 10 only the net change in nonrefundable credits, such as exemption credit, etc. For example, to the extent the tax on line 8 is less than the allowable exemption credit, only the excess exemption credit is included on line 10.

Line 11 – If the net change results in a decrease in allowable credits, add line 9 and line 10.

Line 12 – Complete and attach a separate Schedule P (100, 100W, 540, 540NR, or 541) to recompute the alternative minimum tax for each earlier year and show any change in those taxes in the bottom margin of the forms. Enter the adjustments on line 12.

Line 14 – Add line 13, column (a) through column (e) for all years that you entered “Yes” on line 3. Do not include any amounts for any year that you entered “No.”

Individuals – Enter the amount from line 14 on Form 540, line 23 or Long Form 540NR, line 26. Fill in the circle labeled “FTB 5870A.”

Estates and trusts – Enter the amount from line 14 on Form 541, line 21b. Write “FTB 5870A” on that line.

Other filers – Add the amount on line 14 to the total tax liability before credits on your tax return for the year of the accumulation distribution. Attach form FTB 5870A to the back of your return.

Section B

Complete this section to compute your additional tax due on a trust distribution accumulated over a period of less than 5 years. If the accumulation period was five years or more, do not complete this section. Complete Section A.

Complete the entries for all columns corresponding to the number of years entered on line 2a. If the number entered on line 2a is:

- 1 – Complete only column (a).

- 3 – Complete only column (a) through column (c).
- 4 – Complete all columns.

Line 1 – Enter the amount of your accumulation distribution.

Line 4 – Enter the amount from line 4 on Schedule CA (540 or 540NR), line 21f, column C. This is the amount to be included in the current year. The balance of this schedule will be used to compute the tax on the portion of the distribution attributable to prior years.

Line 5 – Enter “Yes” in each column for the years that you were either a California resident or part-year resident. Enter “No” for the years that you were a nonresident. If the taxpayer was a resident during any portion of the time the trust accumulated the income being distributed in the current year, and left the state for any period of time beginning within 12 months of the date of the current distribution and returned to the state within 12 months of the date the current distribution was made, the taxpayer is presumed to have continued to be a resident throughout the time of distribution.

Line 6 – Enter your taxable income from years 1999 through 2002. Use the taxable income as originally reported, amended, or as changed by the FTB.

Line 9 – Compute the tax (not including any alternative minimum tax) on the income on line 8 using the tax rates in effect for the earlier year shown in each of the four columns. See Part II, Section A, line 7 instructions.

for any credits for the particular earlier year shown in each of the four columns.

Line 12 – Include on line 12 only the net change in nonrefundable credits such as exemption credit, etc. For example, to the extent the tax on line 10 is less than the allowable exemption credit, only the excess exemption credit is included on line 12.

Line 13 – If the net change results in a decrease in allowable credits, add line 11 and line 12.

Line 14 – Complete and attach a separate Schedule P (100, 100W, 540, 540NR, or 541) to recompute the alternative minimum tax for each earlier year and show any change in those taxes in the bottom margin of the form. Enter the adjustment on line 14.

Line 16 – Add line 15, column (a) through column (d), for all years that you entered “Yes” on line 5. Do not include any amounts for any year that you entered “No.”

Individuals – Enter the amount from line 16 on Form 540, line 23 or Long Form 540NR, line 26. Fill in the circle labeled “FTB 5870A.”

Estates and trusts – Enter the amount from line 16 on Form 541, line 21b. Write “FTB 5870A” on that line.

Other filers – Add the amount on line 16 to the total tax liability before credits on your tax return for the year of the accumulation distribution. Attach form FTB 5870A to the back of your return.
